## **Sri Pancharatra Prasada Vailakshyam**

### **Abstract:**

Among the available Pancharatra Agamas, few Agamas are throwing more light on essentials of Authentic Temple Architecture and Sculpture. They speak the unmanifested Paravasudeva and his manifestations in the sculptural Archa forms. They provide vivid descriptions about the deities and Temple Architecture. This paper will reflect the informations provided in various Pancharatra Agamas and persuade younger generation to preserve our distant past, scientific holy tradition for centuries to come.

### **1. Introduction:**

Amara Kosham prescribes the meaning of prasadam, as the dwelling place of Gods and Kings. ('Harmyaadi Dhaninaam Vaasa: Praasaado devabhu bhujjaam')<sup>1</sup>.

Iswara samhita states that vasudeva taught this system in five nights. Sriprasna Samhita tells, Pancharatra system takes everyone to salvation. It is told, principles of Pancharatra are taught by vasudeva himself<sup>2</sup>. Pancharatra Agama is called Bhagavat sashtra.
